Resultado CEFR

Nivel: A1

Confianza: low

Justificacion

The response shows very limited vocabulary and many grammatical errors, making the meaning unclear. Fluency is minimal with frequent pauses and lack of natural rhythm. Coherence is low; the ideas are not logically connected, and the content does not develop a clear message. The utterance is far shorter than the expected duration for the task. Strength: attempts to use some English words. Weakness: insufficient lexical range, inaccurate grammar, and poor cohesion. Recommendation: practice constructing simple sentences about familiar topics, focusing on subject-verb agreement and linking words to improve clarity and length.
