Justificacion

The speech uses a very limited vocabulary, many grammatical mistakes, and fragmented sentences that hinder understanding. Fluency is low with many pauses and hesitations, and the ideas are poorly organized, resulting in low coherence. Content is minimal and does not fully address the task, and the duration is too short. Overall this aligns with an A1 level. To improve, practice constructing simple sentences with correct verb forms and linking words to create clearer, more connected narratives.

Transcript

In this case I have to describe and do this story about Martian, who is not Martian, is and they want to eat sandwich and orange juice they are hungry and then the last one they eat a sandwich with the astronaut i don't know why he can eat no i don't know how he can eat a sandwich in the space he has a what is this a neck and that maybe it's a hand and taking the juice
